COVID-19 | The Health Ministry reported 7,420 new Covid-19 cases today, bringing the cumulative case count to 2,377,033.

They were surpassed by a total of 11,413 Covid-19 patients who recovered today. This is expected to help reduce the number of active cases.

- Patients in ICU: 700
- Intubated: 364

As of today, the number of Covid-19 patients (including suspected ones) in the intensive care unit (ICU) is 11.5 percent lower compared to a week ago.

Those who require intubation have also declined by 5.5 percent from a week ago.

Beginning Oct 9, the Health Ministry will only publish today's breakdown of new cases by states after midnight on its CovidNow portal.

The breakdown by states for yesterday (Oct 14), where 8,084 new cases were reported, is as follows:
