There is growing support for the BN because the people are accepting the 1Malaysia concept, said Perak BN chairman Zambry Abdul Kadir.

NONEHe said the change was apparent because previously many people were influenced by the tactics of the opposition who were creating various issues so that the people would hate the BN government.

"However, the slanders spread by them (the opposition) have been exposed and the people are now unhappy that they have been disillusioned.

"This can be seen from the latest development where opposition leaders and party members are now leaving to support the BN," he said.

Dr Zambry, who is also the Perak Menteri Besar, said this to reporters after a Hari Raya gathering organised by the Parit Umno division in Parit today.
