Prime Minister Najib Razak will resume normal duties soon as his ulcers have healed, said Health director-general Dr Mohd Ismail Merican.

"He is expected to chair the cabinet meeting on Friday," he said in a statement to Bernama today.

Dr Mohd Ismail said Najib underwent an endoscopy at the Selayang Hospital near here this morning, which showed that his ulcers had healed.

"His personal physicians said the prime minister is making very good progress," he added.

Najib, who had contracted chickenpox late last month, was admitted to the Kuala Lumpur Hospital on Thursday for superficial ulcers and mild gastritis and discharged on Sunday.

He was advised to rest at home.
