de facto PKR leader Anwar Ibrahim took place "in a condo in the Damansara area",
according to the police report filed by his 23-year-old aide yesterday.

mohd bakri zininCriminal Investigation Department chief Bakri Zinin also confirmed that a
medical check-up of the alleged victim was being done.

"Our duty is to send (the complainant) to the hospital for checks," he told a press
conference in the Kuala Lumpur police headquarters today.

Bakri revealed that the alleged victim lodged the report at 5.45pm yesterday at the 'pondok
polis' at Hospital Kuala Lumpur, where the Jalan Travers police station has jurisdiction.

However, he refused to divulge details of the alleged sodomy.

"I assure you that we will do a detailed and fair investigation," he stressed.

When asked whether Anwar would be arrested, Bakri said the police would need to "study
the allegation first".

Bakri also refused to divulge what section of the Penal Code would be used for the purpose
of investigations, despite being repeatedly asked on the matter by journalists.

Section 377 of the Penal Code states that acts of heterosexual and homosexual sodomy is a
punishable offence of up to 20 years.

Bakri: Rumour mongers will be punished

Anwar has rejected the fresh accusations against him - the second time in 10 year - and
described it as a "complete fabrication". PKR also said that Saiful was arrested and forced
by the police to lodge such a report against Anwar.

fabricate evidence as claimed by PKR.

"Don't listen to rumours. Listen to me. I'm the CID chief," said Bakri when asked whether
Saiful was arrested before making his police report.

He stressed that the alleged victim wrote the police report himself.

Bakri also warned that action would be taken against rumour mongers who send out SMSes
that can jeopardise public security.
