

Who's clowning who, Mr Prime Minister?

Malaysianmirror.com

12 August 2010

OPINION For goodness sake, Mr Prime Minister Najib, you are getting funnier by the day. I thought only clowns are funny, they like to talk nonsense a lot to make people laugh and that's about it, no further action required of them. Are you, Mr. PM, going the way of the clown?

You have control over all the print media and they are churning out a lot of glorifying news about your capabilities, 1Malaysia Concept, New Economic Model (NEM), National Key Result Areas (NKRA), Key Performance Indicators (KPI), efficiency, excellence, meritocracy, bla bla bla, almost everyday and you still find it not sufficient?

Do you really need to publish an expensive book to explain further because the public are still laughing from what they read in your media?

What the public required is your political will to implement the real spirit of 1Malaysia, the sense of belonging, of offering equality, fairness, socio-economic justice, mutual respect to all Malaysians regardless of race or creed, and stop playing the race supremacy game.

We do not need any further talks or publication of books from you, just put into action what you have already preached thus far. Is it that hard to do?

Stop acting like a clown and instead perform like a real Prime Minister for which you are paid a hefty salary by the people.

One of the reasons for publication of your book is "to refute the various slanders made by certain groups against the government and national leaders".

If there is any slander, why not sue those who slander you or is what they say the plain truth (but you termed it as slander). So why can't you take them to court?

Before you blame others for your own failure, please look at your own backyard. You do not even have full support from your own deputy, party leaders and members. You even allow Malay NGOs to force you from implementing what you preach.

As a concerned citizen who loves this country, I wanted to see a sincere Prime Minister who dares to talk and walk at the same time without any hesitation.

A Prime Minister with only one face that will not tolerate any kind of racist remarks or racism.

A Prime Minister that truly wanted to fight corruption by not interfering with the works of the MACC, and allowing them to report to Parliament and with the power to prosecute.

A Prime Minister that allows freedom of speech by removing the Printing Presses and Publications Act 1984 and allowing peaceful rallies.

A Prime Minister who will not hesitate to take actions against his own ministers who abuse their power, especially the home ministry, police and the judiciary.

A Prime Minister who will not allow detention without trial and immediately ABOLISH the

Internal Security Act (ISA).

A Prime Minister who will carefully select his Cabinet, fill it with people of integrity, honesty, capability and knowledge befitting his position.

A Prime Minister who will practise true democracy.

Can you act upon all the above, Mr. Prime Minister?
