GUA MUSANG - MCA Youth chief Dr Wee Ka Siong is convinced that voters in the Galas state constituency, particularly the Chinese community, are not easily influenced by the tactics employed by the opposition.

Wee, who is also the Deputy Education Minister, said the Chinese voters were now more mature in choosing leaders in their constituency.

"The Chinese community has made a clear stand that they actually don't like the opposition (PAS) because the party had never been concerned before and had never visited them to give any assistance.

"The situation is so different with the Barisan Nasional (BN) and MCA leaders showing interest on their living condition and giving immediate aid if necessary," he told reporters after visiting Chinese homes in Kampung Baru, here Saturday.

As such, Wee said the MCA machinery would continue to monitor the tactics of the opposition who tried to incite the Chinese voters to the extent of affecting racial harmony.

The by-election for the Galas state constituency seat is being held on Nov 4 following the death of the incumbent (PAS) assemblyman Chek Hashim Sulaima who died on Sept 27. - Bernama
