KUALA LUMPUR -- Deputy Prime Minister Muhyiddin Yassin today advised opposition members not to be prejudiced towards the establishment of the Parliamentary Special Select Committee, especially in terms of its composition.

He said they should regard the formation of the committee as a bold effort by the government.

"Its composition will be raised and tabled during the coming Parliament session. What's important to us is the Prime Minister's sincerity in accepting the proposal.

"Stop making assumptions and use this opportunity as a platform to discuss matters," he told reporters after attending a Royal Malaysia Police (RMP) appreciation function at the RMP College in Cheras, here.

Muhyiddin was commenting on the dissatisfaction among the opposition after Minister in the Prime Minister's Department Mohamed Nazri Aziz announced the Cabinet's decision to set up the committee yesterday.

The Cabinet has agreed on a committee, made up of five Barisan Nasional representatives, three opposition and one independent member, which will be responsible for strengthening electoral laws and regulations in the country.
