

MCA Will Continue To Expose The Truth Without Fear

Selangor Menteri Besar Khalid Ibrahim should explain why the Selangor state government is planning to sue over allegations that the state government was involved in a bailout of Talam Corporation using the hard-earned money of the people of Selangor.

The response of the Selangor Menteri Besar when this doubtful transaction was exposed is surprising. Just as DAP issues gag orders against its own members who criticize the party, Selangor now has threatened to sue in an attempt to cover up the truth.

MCA will continue to expose the doubtful transactions of the Pakatan Selangor government, and to trace its cash flows. The people of Selangor have a right to know what is going on, but the state government has attempted to cover up the truth by threatening to take legal action. Are they so foolish and naïve to think that such actions can block the truth from coming out, and that they can stall for time hoping to shift the focus of the public?

DAP gag orders aped by Selangor state govt

The people of Selangor want to see the truth, and not attempts to hide it or to shift focus. Although DAP constantly imposes gag orders to cover up an issue, it mostly only involves the party's own internal problems. This time, the bailout of Talam Corporation is an important state issue and the people deserve to be in the know.

We do not expect the Selangor state government to explain the intricate details regarding the circumstances surrounding this issue, but they must at least be made accountable to the people. This issue involves the people's hard-earned money and they will wish to know how it is being used and how they have played a role in the development of Selangor. It is pitiful that such basic requirements have been overlooked by Pakatan Selangor.

The Selangor state government should take this time to clarify the situation, and should the state government take too long to do so, then the people will undoubtedly replace such incompetency in the coming General Elections!
