

# Abdullah reminds against raising sensitive matters

**KUALA LUMPUR:** Datuk Seri Abdullah Ahmad Badawi has reminded everyone, including Umno members, to be careful when raising matters which are sensitive.

This, he said, was to avoid various reactions that could jeopardise solidarity.

The prime minister said that as the party was the driving force behind the Barisan Nasional, it was important for the Umno leadership at all levels to appreciate this fact and was fair and considered the views of other compo-

nent parties.

"The component parties in the Alliance and later the BN had willingly given Umno the role to lead the coalition.

"Thus, it is imperative that the Umno leadership at all levels understands this matter and their actions must take into account the views of other component parties and they must always be fair," he said.

Earlier, Abdullah, who is also Umno president, gave a two-hour briefing for all Umno divisional leaders.
