

# Everyone has a part to play in nation-building

**KUALA LUMPUR:** Nation-building requires the participation of all Malaysians and they must exert their full effort and care towards the well-being and development of their motherland, said MCA secretary-general Datuk Ong Ka Chuan.

He said the people must always adopt an attitude of helping the country prosper by overcoming challenges and hardships that might emerge.

"We cannot simply belittle the achievements which we have

*The Star - 12/3/2007*  
attained so far. Neither can we simply insult, depreciate, nitpick or look down upon our country by having an intention to migrate," he said at the party's 58th anniversary celebration here yesterday.

Referring to party founder Tun Tan Cheng Lock and other pioneer members as the party's parents, Ong said the party would not have existed if not for their contributions.

He urged all party members to be thankful to its founders for their far-sightedness in establishing the party.
