KUALA LUMPUR: Just hours after winning the Lembah Pantai parliamentary seat, Nurul Izzah Anwar started work.

After sending her husband off at KLIA, she attended a wedding in Pantai Dalam and met with Umno members in the area.

"Since I am going to be the Member of Parliament for the new term, I asked them to work with me to bring progress and development to the constituency," she said at a press conference at her home in Bukit Segambut yesterday.

Nurul Izzah, who defeated three-term Lembah Pantai MP Datuk Seri Shahrizat Abdul Jalil, said she would work towards bringing development and alleviating the suffering of the people, especially those living in poverty.

"I would like to thank my constituents for their enormous trust in

the Opposition and although I don't have the experience, I will take the challenges as they come," she said.

When asked how she was going to handle the more experienced parliamentarians, the 27-year-old Nurul Izzah said the electorate had voted in many new and young people.

"We will provide a fresh perspec-

tive in Parliament. I will not be alone in this.

"The Government has to realise that it can no longer be complacent or arrogant and that the people will no longer accept such an attitude," she said.

When foreign journalists repeatedly asked her if she would vacate her seat for her father, Datuk Seri Anwar

Ibrahim, she replied: "I have already started working in my constituency. There is no question of me vacating the seat. I will not take that question."

Nurul Izzah also thanked Shahrizat for her advice that things would not be easy in Lembah Pantai, which has 200,000 constituents. She added, that like Shahrizat, she had a good team to take care of the constituents.
