# 'Made in Malaysia products just as good, if not better'

NST - 31/1/2015

**KUALA LUMPUR:** Prime Minister Datuk Seri Najib Razak hopes more Malaysians will support and buy locally-made products to help sustain the nation's economic growth.

He said buying products made in Malaysia would reduce the flow of money overseas and boost development of local industries.

Although most countries were affected by the current global economic fluctuation, he said Malaysia had taken the necessary measures to address the issue.

"Most countries are suffering

from the effects of falling oil prices and currency depreciation.

"Malaysia is no exception in this regard, but the government has already taken steps to reduce the impact on the economy," he said via a brief radio broadcast on his blog [www.najibrazak.com](http://www.najibrazak.com) yesterday.

Najib said as the country progressed economically, the nation's expertise in manufacturing technology was increasing as well.

He said many Malaysian products today were not only of comparable quality, but were even better than imported products.
