PM and Dr Mahathir should hold a '4-eyed' meeting, says Khairy

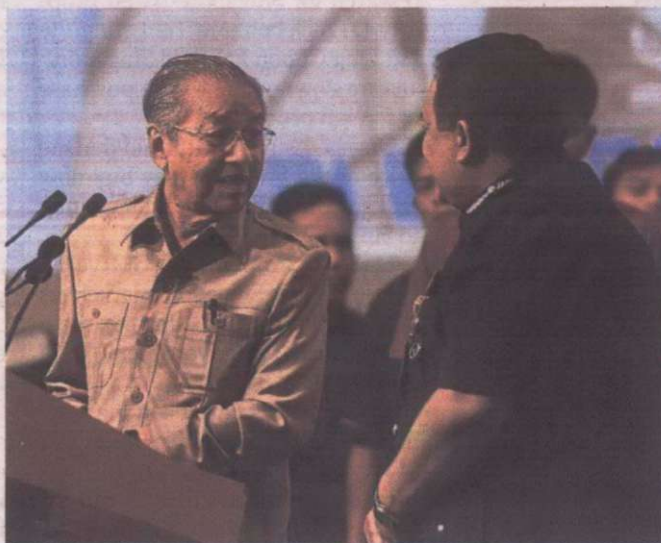

Malaysian Reserve - 8/6/2015

PRIME Minister (PM) Datuk Seri Mohd Najib Razak and former PM Tun Dr Mahathir Mohamad should hold a "four-eyed" meeting to resolve any dispute between them, according to Youth and Sports Minister Khairy Jamaluddin.

He said both of them needed to face each other without the presence of a third person acting as the peacemaker.

"I think the deputy PM, who is also Umno deputy president Muhyiddin, does not have to become a peacemaker as suggested by Datuk Seri Shahrizat Abdul Jalil.

"There will be no third-party that can solve this crisis. Only a 'four-eyed' discussion can resolve it," he told reporters after attending the 'Art of Speed' programme at the Malaysia Agro Exposition Park Serdang in Kuala Lumpur yesterday.

Dr Mahathir was asked to leave the stage by the police at the 'Nothing2Hide' forum last Friday at the Putra World Trade Centre, Kuala Lumpur

Wanita Umno chief Shahrizat had earlier stated that Muhyiddin should initiate steps to reunite the two leaders.

Commenting further on the

dialogue programme between the PM and non-governmental organisations (NGOs) which was organised at Dewan Tun Hussein Onn, at Putra World

Trade Centre last Friday, Khairy said the organisers should invite representatives involved in issues related to the state-owned investment company, Malaysia Development Bhd (IMDB).

"Whoever is invited must have something to do with the issues in the proceedings, the proposal to call Dr Mahathir (but) Dr Mahathir has nothing to do with IMDB," he said.

The dialogue was called off after a commotion ensued outside the hall.

An estimated 1,500 delegates from various NGOs had arrived since 9am yesterday for the dialogue.

Early Friday morning, Inspector General of Police Tan Sri Khalid Abu Bakar through his Twitter account, had ordered the dialogue to be cancelled for public order and safety reasons. — *Bernama*
