## Dr M admitted to IJN

**KUALA LUMPUR:** Former prime minister Tun Dr Mahathir Mohamad was admitted to the National Heart Institute (IJN) here yesterday to receive treatment for a chest infection, the hospital said.

IJN said Dr Mahathir, 91, was placed under observation for the next few days in the general ward on the advice of the hospital's medical team.

It said visitation was limited to

Dr Mahathir's close family members.

The last time Dr Mahathir was admitted to the hospital was on Nov 16, 2013, also for a chest infection.

In 1989, Dr Mahathir suffered a heart attack and underwent a bypass operation at the hospital.

He experienced several more cardiac arrests and underwent a second bypass operation in 2007.
