Reactions to Britain's vote to leave the EU

"THE step the United Kingdom has taken is historic and unprecedented. The future cannot be predicted, although a period of volatility in financial markets is to be expected as the ramifications of the result are understood and as the UK's exit is negotiated.

However, we do not expect a major impact on the Malaysian economy. With our sound fundamentals, diversified economic structure and ample liquidity in our financial markets, Malaysia is well positioned to face any volatility. The Government will also continue to strengthen the economy and further our fiscal reforms.

We regard the UK as an important partner in all areas, including trade, investment, defence, education and tourism. Our economic exposure to the UK is limited, as it is not among Malaysia's Top 10 trading partners.

Whatever comes to pass, I am confident that the Malaysia-UK relationship will be maintained and strengthened."

- Prime Minister
Datuk Seri Najib Tun Razak
