

Safety first

The Cabinet meeting took place in a 'new normal' atmosphere with the seats of its members separated by transparent barriers. Prime Minister Tan Sri Muhyiddin Yassin said the move yesterday was aimed at maintaining physical distancing in an effort to reduce the risk of Covid-19 infections. 'The meeting was the first time all members of the Cabinet could gather for a face-to-face meeting in the same room,' he said in a Facebook post. Previous Cabinet meetings were held at three different locations in the Perdana Putra Building. — Bernama
