**P** RIME Minister Tan Sri Muhyiddin Yassin said Malaysia is on the right track to beat the Covid-19

pandemic having achieved 300,000 vaccinations a day.

He said 313,761 vaccinations were administered on Monday.

The prime minister said to date, more than 6.5 million people had been given one dose, while another 2.7 million had been fully inoculated with two doses.

"The government is optimistic that all the plans are on the right track. God willing," said Muhyiddin in a video posted on Face-

book yesterday.

The prime minister said the target of 300,000 vaccinations a day was announced when he unveiled the National Recovery Plan on June 15.

He said the achievement was in line with the Pakej Perlindungan Rakyat dan Pemulihan Ekonomi (Pemulihan).

Muhyiddin also thanked the people, especially frontline workers and volunteers at vaccination centres, for ensuring the success of the Covid-19 National Immunisation Programme (NIP).

He thanked NIP coordinating minister Khairy Jamaluddin and Health Minister Datuk Seri Dr Adham Baba for the accomplishment.

**The government is optimistic that all the plans are on the right track.**
