

Anniversary programme to be held in other states

KUALA LUMPUR: The unity government will expand the Madani Government One-Year Anniversary Programme to other states.

Prime Minister Datuk Seri Anwar Ibrahim said the programme would be held in Selangor next month. He added that the programme at the state level would showcase the achievements of the government so far.

“We have governed the country for one year and now we are displaying the reports to let people evaluate for themselves. The people can give their opinion and provide suggestions.

“We can reuse the facilities to be displayed at other states’ programmes.

“The Selangor menteri besar (Datuk Seri Amirudin Shari) has agreed ... (we) can do this at a lower cost as we can reuse the facilities to showcase additional information from the respective state governments,” he said during the closing of the Madani Government’s One-Year Anniversary Programme at Bukit Jalil National Stadium yesterday.

Anwar said such programmes enabled participatory and accountability democracy, whereby the performance of each ministry could be evaluated by the people.

He said no leaders would be spared.

“Not everything is perfect or satisfactory — there is room for improvement — but we now begin with a significant shift. The policies, initiatives are being shown to tell the people that these are not merely on paper but have been implemented.”
