

DRIVING GROWTH

'Govt working to accelerate Sabah's development'

KUALA LUMPUR: The prime minister has stressed that the federal government is determined to strengthen and accelerate Sabah's development agenda following the formation of the new state government.

In a Facebook post, Datuk Seri Anwar Ibrahim said these efforts would be realised through strategic investments, an inclusive economy, the enhancement of basic infrastructure and the cre-

ation of quality jobs, aligning with the true potential of the "Land Below the Wind".

"Sabah continues to move forward as a more developed and prosperous state under the Madani government through the implementation of policies rooted in a commitment to MA63 (Malaysia Agreement 1963) and more effective infrastructure management.

"Growth is also being driven

through the empowerment of core sectors such as energy, tourism, modern agriculture, and the blue economy, alongside stronger guarantees of security and sovereignty."

Anwar said all planned initiatives would be carried out transparently to ensure that the benefits of development were shared equitably by the people of Sabah, including those in the interiors.
