

Anwar aces medical check-up

KUALA LUMPUR: A routine medical check-up has confirmed that Prime Minister Datuk Seri Anwar Ibrahim is in good health, said Sultan Idris Shah Hospital director Dr Farique Rizal Abdul Hamid.

He said Anwar underwent his routine check-up at the hospital in Serdang yesterday.

"The results show that the prime minister is in good health and is able to carry out his official duties as scheduled," he said in a statement.

He added that the health check-up was part of Anwar's ongoing commitment to staying fit and being ready to lead the country's administration and to carry out his responsibilities to the people with full dedication. - Bernama
