

Thank you for the inspiration

NST 31/10/2003 - 21 PRECISE

*Twenty-two years at the helm
You worked to make us shipshape
You polished the rough edges
You strengthened our sails*

You made us better, you made us stronger

*You made us fit for a journey
To that far off land we call 2020*

Through blue seas we have sailed

Enjoying balmy weather

Surfing friendly waters

You have taken us places

We never thought to travel

We never dreamed we can

We will forever cherish the motivation to achieve

You will always remain our inspiration
