

'Share good lessons from abroad'
New Straits Times
December 4, 2011

KUALA LUMPUR: Bring back the good and discard the bad, said prime minister's wife Datin Seri Rosmah Mansor yesterday.

In a closed-door meeting with the Umno Overseas Club members, Rosmah urged them to apply the lessons and programmes they have learnt abroad in Malaysia and share their experiences with those who can benefit from them.

Rosmah also called on the members to have a spirit of volunteerism and contribute to Umno programmes, especially in education.

"I advise them to brainstorm on ways to help the government and non-governmental organisations, and expand good programmes that they have seen overseas to our country," she said, adding that she also emphasised to the members the need to strengthen the education and practical skills of youth in the nation.
