

**Chicken breeders want higher price cap**  
**The Malaysian Insider**  
**August 21, 2011**

KUALA TERENGGANU, Aug 21 — The Terengganu Poultry Breeders Association asked today for a ceiling price review for chicken as rearing cost has risen.

Members are losing money and risk closing shop because of the present price ceiling said secretary Shamsudin Wahab.

He said that the maximum price per kg of the meat was RM6.35 but it the actual cost was RM7.20 per kg.

Crucially he pointed out that chicken breeders have to buy the chicks at inflated prices during this festive season, as the usual price of between RM1.10 and RM1.20 has gone up to RM2.20 presently.

Shamsuddin said there is also the additional cost of rising chicken feed prices.
