

Umno Kelantan Collecting Election Simulation Feedback
Bernama
September 17, 2011

JELI, Sept 17 (Bernama) -- The Kelantan Umno liaison committee is collecting feedback from its divisions following a two-day election simulation exercise to test and enhance the party's election machinery, said its chairman Datuk Seri Mustapa Mohamed.

Speaking to reporters here Saturday, Mustapa, who is also International Trade and Industry Minister, said the exercise would be a guideline for Kelantan Umno and the the state Barisan Nasional (BN) in facing the upcoming 13th general election.

He said even though the simulation was not an indicator of the party's strength, it was necessary to check whether the party machinery was functioning properly.

"And it is, judging from my visit to some polling centres in my parliamentary constituency. This is a good sign for BN and UMNO which are ready for the election anytime," he said.
