SHAH ALAM, Sept 17 — Datuk Seri Najib Razak today reminded leaders of Barisan Nasional (BN) component parties not to concentrate on looking after the interests of members of their community only.

The prime minister, who is also BN chairman, said the ruling coalition would not be successful in running the country if it was based on the interests of only one community.

He said sincere BN leaders would assist anyone in need of help without asking the colour of his skin or which community he came from.

This was in the spirit and principles of the BN, he said according to a report in Bernama Online.

He was speaking at the Selangor BN Convention at the Sultan Salahuddin Abdul Aziz Shah Polytechnic here.
