KUALA LUMPUR, Oct 18 — Lim Guan Eng said today he was furious with the “barbaric lies” made about his young son by “pro-Umno ferocious beasts” and singled out Khairy Jamaluddin and other party leaders for perpetrating the allegations with snide comments on blogs and on social media.

“My family and I deplore these lies and fabrications against my young son as morally despicable and barbaric. Umno should act against those trying to wreck the life of my young son with cruel and barbaric lies just to finish me off politically,” Lim (picture) said in a statement.

The Penang chief minister, in a strongly-worded statement here, said his son has been shaken by the allegations that surfaced in pro-Umno blogs and has been unable to face school for the past few days.

“I urge these ferocious pro-Umno beasts not to prey on the innocence of my young children. If you want to finish me off, do your worst to me but leave my innocent children alone,” he said.

Lim urged the Umno leadership to take action against party members guilty of perpetuating the rumours, warning that he too reserves the right to take further action.

“In the meantime, my wife and I will try to heal my young son and pray that he will recover from having his innocence so cruelly destroyed by these pro-Umno beasts,” he said.
