BENTONG, Jan 21 (Bernama) -- The Terengganu Umno has completed a census on outsider voters in which it identifies 69,000 electors who had not returned home to vote in the last general election, state Umno chief Datuk Seri Ahmad Said said.

He said the party was also gauging their attitude towards the coming election.

"We have obtained their contact numbers and residential addresses because we want to contact them and ask them to return home to vote in the coming election," he said when closing the state Umno retreat here Saturday.

The three-day event was participated by 421 party members.

The menteri besar said the census was an important segment in the party's preparations for the election, describing these groups as crucial in determining electoral outcome.

He said all elected representatives in the state would be required to use the data from the census in the coming 13th general election.
