

**Teaching And Learning Of Science And Maths Fully In BM In 2016 - Muhyiddin Bernama  
November 4, 2011**

PUTRAJAYA, Nov 4 (Bernama) -- The Teaching and Learning of Science and Mathematics in primary schools in Bahasa Malaysia will be fully implemented in 2016, and in the secondary schools in 2021, Tan Sri Muhyiddin Yassin announced.

The Deputy Prime Minister said that the Cabinet meeting today also decided to allow primary school pupils, who were currently learning Science and Mathematics fully in English, to use Bahasa Malaysia fully, or in two languages so that they could continue the learning of Science and Mathematics in English up to secondary school.

Muhyiddin, who is also the Education Minister, made the announcement at the Putrajaya International Convention centre, here today.

Yesterday, Muhyiddin had said that he would make a detailed clarification of the position of Teaching and Learning of Science and Mathematics in English (PPSMI) and how the Elevation of Bahasa Malaysia and Empowerment of the English Language (MBMMBI) would be implemented, particularly pertaining to the transition period following the government's decision to abolish the policy (PPSMI).

The Cabinet had decided in 2009 that the PPSMI would not be continued.
