KANGAR, March 25 (Bernama) -- The Raja Muda of Perlis, Tuanku Syed Faizuddin Putra Jamalullail wants Perlis, which often experienced floods, to be a role model in disaster management.

The people who are used to flooding should not remain silent, but try to address the The two-da problem by using effective methods in managing the disaster, he said.

Closing the disaster awareness programme, organised by the Perlis National Security Council (MKN) in Tasoh Lake Resort and Retreat near here today, The Raja Muda said the people should not leave the responsibility of managing the disaster to the government alone.

"The people also need to take all measures to prevent and reduce the damage in order to achieve the goal of becoming a developed state," he said.

He said although the disaster was inevitable, initial efforts to minimize the death toll and property loss could be done.
