GEORGE TOWN: Tan Sri Muhyiddin Yassin has challenged Penang Chief Minister Lim Guan Eng to prove his claim that he has developed the state since taking over the state's administration.

The Deputy Prime Minister said Lim's claim that he had brought in foreign investments was a lie as this would not happen without the contribution of the federal government through the International Trade and Industry Ministry and its agencies.

"He (Lim) said that only one month after becoming Chief Minister he had brought in a huge amount of investment, so I want him to prove his claim as all this was the result of the efforts of the federal government and the previous state government.

"Whatever there is in Penang now is the result of the previous state government's contribution.

"We also want to know what he (Lim) has contributed, especially in helping the people cope with the rising cost of living," Muhyiddin told some 10,000 people at the Kenduri Rakyat 1Malaysia in Persiaran Mahsuri, Bayan Baru, here.

He said Lim was only riding on the efforts and what had been done by the previous state government.

He said the federal government had given more than what the current state government gave to the people in Penang.

"If the state government had given RM100 (to each senior citizen), the federal government had given more than that," he added.

In this regard, Muhyiddin urged the people of Penang to think of a brighter future for themselves and support BN in the coming general election.

On Bayan Baru parliamentary constituency, he urged the people to return the seat and its three state seats to BN for their own interest and future.

He also announced an allocation of about RM3mil for the Bayan Baru constituency to help the people with various infrastructure problems.
