KUALA LUMPUR, April 19 — Former prime minister Tun Dr Mahathir Mohamad was today discharged from Universiti Kebangsaan Malaysia Medical Centre today after having minor surgery two days ago.

According to Bernama, Dr Mahathir's hour-long operation was one to remove nasal polyps. His aides issued a statement that read: "He is well and doctors were satisfied with his condition."

It also stated that Dr Mahathir was advised to rest and will be on medical leave until the weekend.
