KOTA MARUDU, May 7 (Bernama) -- The people should evaluate wisely the benefits from the government transformation programme, like creating employment opportunities and stimulating the country's economic growth.

As such, Umno Vice-President Datuk Seri Shafie Apdal hoped that they would not choose the wrong government in the coming general election, but one which could safeguard their future and the country.

"Let not, because of some dissatisfaction, the people reject Barisan Nasional (BN) and choose the opposition because of their empty promises.

"In their end, their future and that of their family, is at stake," he said at a function with the people here.

Shafie, who is Rural and Regional Development Minister, said the people should also evaluate contributions made by the government under BN and the opposition.
