October 02, 2012**

KUALA LUMPUR, Oct 2 (Bernama) -- The best university is measured not only on its impact on the university fraternity but also on its meaningful spillover impact on society, says the Raja Muda of Perak, Raja Dr Nazrin Shah.

He said for this to happen, universities must be at the forefront in championing inculcation of good ethics and a high level of integrity among their undergraduates and staff.

"Universities should be the benchmark for civilisational attainment and society's height of intellectualism," said Raja Nazrin, who is also the pro-chancellor of Universiti Malaya, at the second session of the university's 51st Convocation ceremony, here, Tuesday.

At the convocation, two professors were also made Professor Emeritus. They are Prof Dr Lee Sing, a plasma radiation studies expert who played an important role in the setting up of the Institute for Plasma Focus Studies, and Prof Datuk V.Sivanesaratnam, an obstetric and gynaecology specialist.
