KUALA LUMPUR, Nov 27 (Bernama) -- Malaysia is on the right path towards transforming its economy to become a high-income nation, Prime Minister Datuk Seri Najib Tun Razak said.

He added that the country's socio-economic development plan for 2013 will see growth of 5 percent gross domestic product (GDP).

"Strong GDP growth thus far will enable us to strive for more than 5 per cent economic growth in 2013 and on track to our destination of high income nation," he tweeted Monday night.

Malaysia's economy grew by 5.2 per cent as compared with 5.6 per cent in the third quarter of 2012.

The main contributors were the Services, Manufacturing and Construction sectors.
