KUALA LUMPUR, April 4 — Tun Dr Mahathir Mohamad will join the Malay Economic Action Council's (MTEM) campaign to call on the Najib administration to reject the Trans-Pacific Partnership Agreement (TPPA), a free-trade agreement led by the United States.

Its chairman Datuk Syed Ali Mohamed Allatas called the agreement a threat to Malaysia's economy and sovereignty, arguing that Malay businesses would be the most impacted should Putrajaya pen the deal which detractors claimed could expose Malaysia to a "new form of domination".

Critics of the TPPA claim the agreement was designed by and to favour US-based giant corporations aimed at "infiltrating" new markets.

"It is a new form of domination. Our economy will be shared by others. We will share the sovereignty of our country," Syed Ali told reporters here.
