The organisers of this Saturday's Black 505 rally will face prosecution as they have not received approval from City Hall to use Padang Merbok in Kuala Lumpur for the gathering.

They will be investigated for contravening the Peaceful Assembly Act (PAA) 2012 if they go ahead with it.

This was the warning issued by Dang Wangi police chief Assistant Commissioner Zainuddin Ahmad today. He said although the organisers had been given the police the required 10-day notice, they had not received approval for the use of the field from City Hall.

The police will not make any preparations to accommodate the rally but warned they will be there to enforce the law.

The Black 505 gathering is being organised by Pakatan Rakyat to protest the alleged fraud at the recent polls.

It is also to pressure the top two in the Election Commission to resign for their alleged failure to conduct a free and fair election.
