

**Government Appoints Four Companies To Supply Service Products For OSCC -
MAMPU
Bernama
15 July, 2013**

PUTRAJAYA, July 15 (Bernama) -- The government has appointed four companies as panels to supply product services to Open Source Competency Centres (OSCC) for a period of two years.

The Malaysian Administrative Modernisation & Management Planning Unit (MAMPU) in a statement issued today said the companies were Dataware Sdn Bhd, Resolv Technologies Sdn Bhd, Salesfoster (M) Sdn Bhd and Multi Media Synergy Corporation (MMSC) Sdn Bhd.

"The government hopes the appointment of the companies will further expand the scope of the 10 OSCC products in government agencies," said the statement.

The products will be developed by OSCC and used by all 724 agencies for free, namely services like MySpamGuard, MySuftGuard, MyNetWatch, MyWorkspace, MyDesktopManager, MySurveillance, MyTaskManager, MyMesyuarat, MyBooking and MyDocManager.

With the cooperation of the Finance Ministry, the supply panel for OSCC service products was set up to improve the Open Source Software (OSS) and increase the adoption of OSCC products by agencies.

"The panel will provide various services like promotion, training, implementation, transform applications, technical support, research and development to improve the information, communications and technology industry and contribute to the growth of the country's economy," said the statement.
