Putrajaya must reveal its plans to recover RM163 million which was part of the RM250 million soft loan given to the scandal ridden National Feedlot Centre, PKR strategist Rafizi Ramli said today.

He was commenting on a report in The Malaysian Insider, that a new consortium will take over the NFC project but not the RM250 million liability.

He said the government is bound to face problems recovering the debt as NFC was no longer operational.

He pointed out that the government also never imposed a personal guarantee on the directors of NFC, referring to the family members of Wanita Umno chief Datuk Seri Shahrizat Abdul Jalil. - July 9, 2013
