Where: Berjaya Times Square Convention Centre, Kuala Lumpur, Malaysia

Admission: MYR 600

Info: [Event](#) | [Flyer](#) **Updated**

Malaysia has had its fair share of crises, from the 1987 recession to the Asian currency crisis to the 2008 financial crash. We have weathered the storms but the world in which we are in is anything but calm. Uncertainties abound, with the world rocked by a fresh financial crisis, and a constantly changing environment presenting Malaysia with new challenges as well as opportunities. How will the nation fare in the year's ahead leading up to the goal year of Vision 2020? What are the issues that we have to tackle as a nation in order to succeed in the 21st century?

To address these concerns, Perdana Leadership Foundation is organising its fifth CEO Forum. Once again, more than thirty Malaysian CEOs and industry experts will give their opinions on a wide range of issues such as Malaysia's external challenges, the nation's SWOT report card, our talent development channel via higher education, the future of our natural resources, and the development of the Islamic finance industry in Malaysia in an event that promises fresh interactions and new insights.
