

**Significant Growth In More Healthcare Institutions Throughout Emea  
Bernama  
5 March, 2014**

KUALA LUMPUR, March 5 (Bernama) -- Vital Images, Inc., a Toshiba Medical Systems Group Company, continues its expansion in the EMEA market (Europe, the Middle East and Africa).

The expansion is fueled by an increasing number of organizations migrating to Vital's VitreaAdvanced enterprise solution, to help improve efficiency, communication and patient care, said a statement issued by Vital Images, Inc in Den Haag, Netherlands.

"Our sites within EMEA have historically been workstation-based, but the trend is quickly moving towards providing instant access to the information needed to make informed decisions through Vital's VitreaAdvanced enterprise imaging software," said Steve Andersen, Executive Vice President, International at Vital.

VitreaAdvanced, Vital's advanced visualization solution, will be featured in the Vital (Expo C, # 320) and Toshiba (Expo C, booth #321) stands at The European Congress of Radiology (ECR) in Vienna, March 6-10.

It provides powerful 2D, 3D and 4D images for applications addressing cardiovascular, neurovascular and oncology disease states.
