KOTA KINABALU, Aug 9 (Bernama) -- The Umno Youth movement here has proposed that the government set up a body or committee to gauge the survival of bumiputera entrepreneurs in the city.

Its chief Mohd Bahrin Abd Karim said to date, no government organisation or agency had been entrusted with the full responsibility of studying and gathering data on bumiputera entrepreneurs in the city.

He said without comprehensive statistics and data, the government would find it difficult to keep track of bumiputera entrepreneurs in the city and the state.

"If we were to ask how many bumiputera traders are there in the city, what enterprise are they involved in, or what problems are they facing, I think we cannot get an accurate answer because there is no specific data on them," he said in a statement here Saturday.
