The sacked Selangor executive councillors have urged an embattled Tan Sri Khalid Ibrahim to leave gracefully as the political impasse in the state heats up.

Sungai Pinang state assemblyman Datuk Teng Chang Kim said by leaving now, the Selangor menteri besar would be able to keep his positive record intact.

"He has lost the political legitimacy and the people's mandate, and so he has to step down from his post as menteri besar.

"We appeal to him to step down gracefully. We will remember all his good deeds during his service with the state government," Teng said today at a joint press conference joined by the other five former excos.

Khalid yesterday sacked three PKR and three DAP state councillors, effectively kicking the coalition out of the state government. – August 13, 2014.
