SINGAPORE, March 21 (Bernama) -- Former Prime Minister Lee Kuan Yew's condition has worsened, the Prime Minister's Office (PMO) said in a statement Saturday.

Kuan Yew, 91, is at the intensive care unit of the Singapore General Hospital (SGH) where he was admitted on Feb 5 for severe pneumonia.

As prayers and well wishes kept coming in from Singaporeans, for the founding father of modern Singapore, a special area was also set up for well-wishers to leave cards, flowers and gifts for him at SGH.

Kuan Yew was the first Prime Minister of Singapore, governing the city state for three decades.
