

Accounting service launches DIY page on GST – Bernama
The Malaysian Insider
March 24, 2015
By Eileen Ng

Sage Software Sdn Bhd, an accounting software and services provider, has put up a comprehensive “do-it-yourself” page on its website to assist customers on the goods and services tax (GST) and software-related issues.

The website includes YouTube videos and checklist tools, also features notes on the basic understanding of GST and step-by-step guides on function-specific tasks which incorporates screen captures for easy reference. For example, filing of tax returns.

"There is still misinformation in the market at the moment on the GST, however, we must remain on-track and proactively support customers," Sage Software Managing Director Michael Cho said in a statement, in conjunction with the company's GST training session.

Since 2013, Sage Software has conducted over 200 GST training sessions, free clinics and roadshows, reaching out to more than 22,000 customers nationwide.

The GST will be implemented on April 1. – Bernama, March 24, 2015.
