KUALA LUMPUR, April 17 (Bernama) -- Prime Minister Datuk Seri Najib Tun Razak has cautioned the people against falling prey to information democratisation.

He noted that Malaysia had been thrust into the information democratisation era, albeit unwittingly, but "which has its good and bad points".

He said a lot of information were manipulated and circulated without restraint and over the years had misled the people.

"In fact, we are living in an era of perception, not reality," he said in a radio broadcast on democratisation of information which was uploaded on www.najibrazak.com, today.

He said the accusations and innuendos being hurled around by leaders regardless of whether they were from the government or opposition did not reflect the reality of an issue or situation.
