MELAKA, April 9 (Bernama) -- Prime Minister Datuk Seri Najib Tun Razak should be given sufficient space to plan and to carry out various development plans to bring the nation to a higher level, said Chief Minister Datuk Seri Idris Haron.

He said unnecessary pressure was not going to help the prime minister to govern the country and to lead the country to a better future.

When the country was facing many challenges, Idris said the people must unite and work together with Najib to ensure the country's development especially for the benefit of future generations.

"Don't just point fingers, instead we should look deeper into the situation, study our weaknesses and move ahead together," he told Bernama Thursday.

He believed that any criticisms would not weaken the prime minister's spirit to continue administering the country and to serve the people.

He made the comments in wake of criticisms against Najib's leadership by former prime minister Tun Dr Mahathir Mohamad.
