**Dec 22, 2014**

KOTA KINABALU, Dec 22 (Bernama) -- The Sabah Puteri Umno movement will organise a Social Media and Information Technology Course to benefit individuals who want to compete in the cyber world.

Sabah Puteri Umno Head Normala Rasik said all Puteri members should be proficient and become cyber warriors who are capable of countering negative information and stopping lies spread on the social media.

"Puteri will be trained to make the social media our medium to share information which is constructive as well as make it a forum or platform for various topics, issues and useful knowledge," she said in a statement here Monday.

Normala said social media activists should also assist the government in disseminating information which could contribute towards Sabah's development and growth as well as that of the nation.

"Social media is no longer considered the vehicle for negative emotions, criticisms, lies and news.

"The social media should be used to help the government get the support of the people and facilitate short and long-term projects," she said.

Meanwhile, Normala said, Sabah Puteri Umno would continue its efforts to increase the membership of the movement through road shows and community programmes which would be implemented next year.

"To date, the membership of Sabah Puteri Umno stands at about 57,000, and this number will increase with the e-membership facility which has been introduced," she said.
