

## **Najib Advises People to Take Care during Hot Weather**

**Bernama**

**March 28, 2016**

KUALA LUMPUR, March 28 (Bernama) -- Prime Minister Datuk Seri Najib Tun Razak has advised the people to take precautionary measures during the current hot weather.

They must drink enough water and restrict participation in outdoor activities, he said in his Facebook account.

Najib said he was given the latest report on the hot weather in Malaysia which he added was worrying as the mercury was almost 40 degrees Celsius.

"The Health Ministry reported nine extreme cases related to the hot weather, including heat exhaustion and heat cramps," he said.

The Prime Minister asked the Welfare Department to monitor the less fortunate people such as old folks and vagrants.

"Help them obtain health services if necessary," he said.
