INCHEON (South Korea), May 25 (Bernama)-- Media that are free and responsible help people across the world to stand up for human rights, justice, dignity and opportunities for all.

United Nations Secretary-General Ban Ki-moon said based on this premise, the world body would continue to speak out for press freedom and the free flow of information.

"The media, including, and increasingly, online media, serve as our eyes and ears. We all benefit from the information they provide.
