He says the manual focuses on young voters who are easily influenced by statements on social media.

LENGGONG: Umno has prepared a special manual as a preamble to the 14th general election (GE14) to ensure victory for the party and BN, said Umno vice-president Hishammuddin Hussein.

He said the manual focused on, among others, winning over the young voters who were easily influenced by statements on social media.

"In addition, we will also try to approach the persuading voters, military veterans, teachers and Felda settlers to enable them to decide based on facts.

"We have to do this because in the run-up to GE14, various issues will be raised and we may not have the time to handle them," he told reporters after closing the Lenggong Umno division delegates' conference, here, today.

Hishammuddin, who is the Umno GE14 Manual Preparation Committee chairman, said a series of workshops had been organised to explain the manual.

Meanwhile, Hishammuddin who is also defence minister, said the people should realise that GE14 would not just be about defining the country's political landscape as it was also related to national peace and security, especially in today's increasingly challenging world.

He said he would be going on a working visit to the United Arab Emirates, Saudi Arabia and Bahrain to share information on tackling terrorism.

"Intelligence sharing is very important to combat terrorism and to prevent incidents happening (in West Asia) from spreading here as the (Islamic State) influence is already seen in Mindanao, southern Philippines.

"If the political situation is unstable, whatever has been planned will fail, everyone will be blaming each other and eventually it is the people who will suffer," he said.
